Support Innovators. Spark Innovation.

Andrea Pittman  
Founded in 1997, 2008  
Andrea's research... funded for early investigators into how children with hearing loss manage—and learn in—complex environments, like their classrooms. That support allowed her to build a strong base for her continued research into improving their educational outcomes.

Will Hula  
Founded in 2004, 2005  
Will wanted to find a better way to bring investigation into new, innovative methods of measuring clinical outcomes in autism—creating a stronger evidence base for clinicians to help patients.

Rita Patel  
Founded in 2008, 2010  
Rita supports the voice of the children... Recently, with pilot data collected from an early intervention program, she and her research team worked toward developing better assessment tools for the early detection of vocal disorders in children, to get them the treatment they need.

Sarah Hergen Ferguson  
Founded in 1998  
Sarah investigates what, exactly, makes clear speech clear, setting to other solutions to provide with hearing loss and from communication partners—beyond hearing aids. And with... of her research, beyond funding to no longer out of reach.
